

Born from innovation, designed for the future

At Orolux, we design architectural lighting systems that enhance the identity of every space. By combining European engineering standards, premium materials, and sustainable technologies, we help architects, designers, and developers transform ambitious concepts into exceptional environments.

Architectural Lighting for Luxury

Architectural Lighting for Luxury

At Orolux, we believe lighting is more than illumination—it is an essential part of architecture.

Our mission is to deliver intelligent lighting solutions that combine engineering precision, sustainable innovation, and timeless aesthetics, helping designers and developers create spaces that inspire, perform, and endure.

Architectural Brilliance in Every Detail

Architectura | Brilliance in Every Detail

We combine technical engineering with architectural elegance. From bespoke indoor lighting to large-scale urban solutions, Orolux delivers the perfect balance of performance and aesthetics.

Are you searching for precision in performance or a statement in design?

With Orolux, you don't have to choose.
Our collections bridge the gap between architectural
engineering and timeless aesthetics, ensuring your
vision is illuminated exactly as you imagined.

Meet the Orolux Team

Meet the Orolux Team

Orolux is a dedicated team of experts united by a passion for architectural lighting technology. Our mission is simple: to transform your vision into reality through precision, innovation, and a deep understanding of your unique needs.

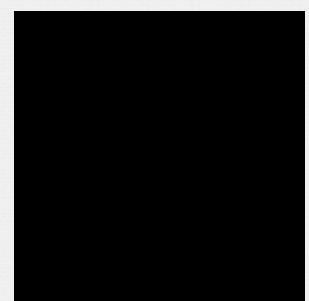

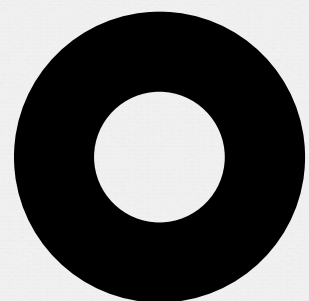

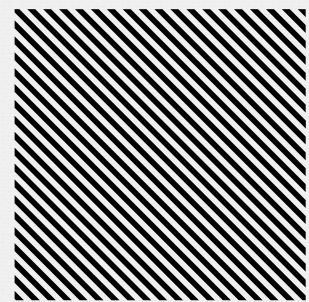

We don't just supply lighting; we engineer experiences.

OROLUX

Defining the Future of Light

Lighting is not just about illumination; it is about defining the experience of a space.

At Orolux, we continue to push the boundaries of design and sustainability, ensuring that our solutions stand the test of time. Let us partner with you to shape the landscapes of tomorrow.

A wide-angle photograph of a large, modern industrial factory interior. The ceiling is high with a complex network of steel beams and numerous industrial lights. In the foreground, several large, ornate chandeliers with many small lights are hanging from the ceiling. A large black wall in the background features the 'OROLUX' logo in white capital letters, followed by a stylized yellow arrow pointing to the right. The floor is polished and reflects the lights. In the middle ground, there are several workstations with blue metal frames and white tops, where workers are visible. Various tools, materials, and components are scattered on the workbenches and on the floor. The overall atmosphere is one of a busy, high-tech manufacturing environment.

OROLUX

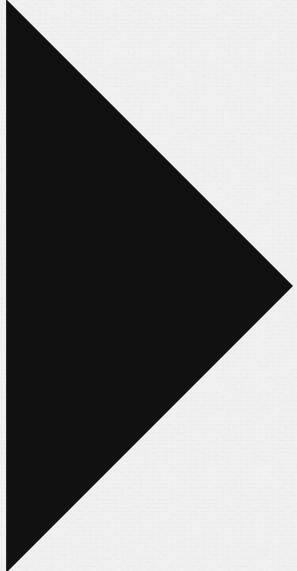

Tailored Solutions, Global experience

Tailored Solutions, Global experience

We provide comprehensive lighting solutions, from initial architectural design and technical consultation to final installation support.

Our commitment is to ensure that your vision is realized with precision, reliability, and excellence, wherever your project is located.

Quality You Can Trust

We believe in the longevity of our products.
With Orolux, you're not just buying a light fixture; you're investing in reliable, high-performance lighting solutions.

Shaping Ideas with Dedicated Expertise

Shaping Ideas with Dedicated Expertise

We offer more than just products; we provide a dedicated design service. Let Orolux help you curate the ideal combination of lighting solutions to bring your architectural vision to life.

Let's build the future, together

Have a project in mind? We are ready to assist.
